## PRODUCTS WOVEN ON THE LOOM

---

We have renewed the loincloth, which is a long-established tradition from the Ottoman Empire to the present, for you, without breaking our bond with the past. We have brought together our loincloths, which we produce using both traditional methods and the latest technology, with today's fashion and colors by making them the most natural and useful.

The areas of use of our loincloths, which are frequently used in the bath, sauna, and beach, are increasing day by day because they do not take up much space, absorb a lot of water due to their natural structure and dry quickly, they are now used in picnics, meals, and even sports.

We share our most natural and latest fashion loincloths with you ...
