ABOUT EMILLIE'S PESHTEMAL PRODUCTS

Peshtemal, also known as a Turkish towel or bath towel, is a long-established tradition from the Ottoman Empire to the present day. Therefore, the Turkish bath and Turkish loincloths are inseparable.

It is woven from many natural threads such as loincloth, linen, cotton, and bamboo, which are used frequently and in every field today. Loincloths consisting of classical colored bars have started to appear in many sizes and patterns with the widespread use of technology and usage areas.

In addition to absorbing water quickly and drying easily, it takes up fewer space thanks to its light and thin structure, and its usage areas have started to increase day by day.
